* Size uncompressed

IMPORTANT : REQUIREMENTS FOR ALL DIGITAL OUTPUT

All Files for Digital Output must be saved as PC format (ISO 9660). All files must be on one media type and must be 250dpi, vert or horz orientation, RGB, and Baseline Standard JPEG files.

You MUST make your canvas sizes the same as those listed above and if you do require a slightly smaller image than the normal sizes, then you MUST make the canvas size up to the next available size.

Note: NO LZW compressed TIFF's, Baseline Optimized or Progressive jpegs are acceptable and if supplied will incur a file correction fee of \$15.00 per file and cause the order to be 2-3 days later. Filenames MUST be 8 characters or less.
