36" longer than 54" add \$1.50/in.(2.5cm)

8x12" in lot of 4, \$7.50 ea

Peeleazy is produced using Epson Ultrachrome HDR inks.

The material has a repositionable backing which allows the product to be removed and replaced a number of times without leaving residue on the surface. (it is important to test the soundness of surfaces before applying.)

Peeleazy is ideal for temporary displays or for displaying images where permanent fixing to the surface is prohibited.
