

# SCANNING - Information

**Scanning orders must be numbered with a 4 character sitting/job number at the time of processing.** Web sized files are also suitable for web images or low res CDrom production (eg wedding proofs)

**\*Scan Sizes - 35mm/ 120 - (6x4.5, 6x6, 6x7)**

Web Scan = approx .25mb

Level 2 = approx 18/20mb (Prints up to 11"x14")

Level 1 = approx 4.5/5mb (Prints up to 6"x8")

Level 3 = approx 65/80mb (Prints larger than 11"x14")

**\*\*Digital ICE** - Digital ICE technology is used on each image scanned to remove dust spots etc. Digital ICE technology will automatically remove dust, scratches and blemishes from a scanned image to improve workflow productivity both in terms of labour and time. Digital ICE does not soften, blur or in any way alter the detail or composition of the scanned images. This technology works within the scanner, during the scanning process, to provide users with a clean, authentic base image that may help to improve the original image.

**Digital ICE is not available from true B&W films.**

For scans from film at the time of processing see "Traditional Film Services Price Guide"

Individual Scans		Service time - 2days
<b>LEVEL 2</b> Up to 18Mb	<b>\$8.00</b>	Suitable for print sizes 8"x12" up to 11"x14"
